America is the Planet Bully! 200108

January 8, 2020

[Emailed to United Nations, Fed Chair Jay Powell, Minneapolis Fed President Neel Kashkari, Dallas Fed President Robert Kaplan, Congressman Van Taylor, Congressman Colin Allred, Senator John Cornyn, Senator Ted Cruz, The U.S. SEC, NYT/WSJ/WP/CNBC/DMN, and Dallas Mayor Eric Johnson on 1/8/20.](#)

The **United States of America** is attempting to maintain financial, economic, political, and military control of **Planet Earth** by committing a **fiscal and accounting fraud!** The **U.S. Government** is not operating its **fiscal policy** according to proper and **Generally Accepted Accounting Principles (GAAP Accounting)** and as a result is printing **imaginary-counterfeit money** to **fraudulently enrich America** and to provide the money to finance both our **political and military activities!**

America needs to start acting like who we are rather than pretending to be something we are not!

The **U.S. Government** has printed **\$127.6 Trillion** of **counterfeit money** so **America** can appear to pay for the **largest military arsenal ever assembled** and to support extensive **military, intelligence, and diplomatic operations** all over the **planet!**

Honest accounting would reflect the truth that **American military, intelligence, and diplomatic** resources would be a **miniscule fraction** of current levels if the **U.S. Government** was operating its **fiscal policy** with proper **accrual accounting!**

The **U.S. Government** needs to back off from trying to tell and force other countries what to do and how to do it!

The **U.S. Government** is running a **Con Game** to make the **rest of the planet** think the **United States** is rich and powerful when in fact our financial, economic, political, and military capabilities are not that much different than most other countries!

Printing **\$127.6 Trillion** of **counterfeit money** has let **America** appear to be the **Planet Bully!**

We need to assume our rightful and more modest role in the governance and control of **planet earth!**

Other countries would not be attacking and terrorizing us nearly as much if we were being honest with the **rest of the planet!** People and countries resent the **fraudulent opulence** that this **accounting fraud** that I call **USAPonzi** has produced for **America!**

We need to start **living within our means** rather than **cheating the rest of the planet** by **printing counterfeit money!**

USAPonzi is a \$127.6 Trillion criminal act by the senior officials of the U.S. Government!

The following commentaries give further explanations of this **absurd and criminal fiscal policy** of the **U.S. Government**.
